MARCH 2025

MANAGER'S MINUTE

Happy March, Heartland Family!

March is here, and just like the unpredictable weather, your car might need a little extra attention as we transition into spring. It's the perfect time to check your tires, brakes, and suspension after winter's wear and tear. If you're planning road trips for spring break or summer, let us help you get road-ready with a quick maintenance check. And don't forget, St. Patrick's Day is just around the corner. While we can't guarantee a pot of gold, keeping your car in top shape is the next best thing. Thank you for trusting us to keep you safe on the road. Here's to smooth rides ahead!

See you in the shop,
The Heartland Auto Repair Team

RAINY SEASON IS APPROACHING; MAKE SURE YOUR TIRES HAVE ENOUGH TREAD

Missouri may not get as much snow as some northern states, but it does see its fair share of rain. Driving in the rain can be just as dangerous as driving in snow and ice if your car isn't properly prepared for the conditions. The best way to prepare? Make sure your tires have enough tread.

WHEN SHOULD YOU GET NEW TIRES? When tires are new, their tread is approximately 9/32 of an inch deep. But tires don't necessarily need to be new to drive safely on wet roads. Legally, tires need to be changed when the tread has worn down to 2/32 of an inch deep, but that "legal limit" isn't going to be enough to handle Missouri's slick roads. Driving on wet roads, especially when traveling through large puddles, can cause cars to hydroplane when there is not enough tread on the tires. Hydroplaning is a dangerous situation where the tires actually lose contact with the surface of the road. And it can easily cause an accident, as drivers often lose control of their cars. Most manufacturers recommend getting new tires when your tires have worn down to 4/32 of an inch, which will provide needed protection against hydroplaning and keep your tires firmly on the ground.

TAKE THE QUARTER TEST The difference between 4/32 of an inch and 2/32 of an inch is very minor, but it makes a big difference out on slick roads. So how do you know if your tires have enough tread without taking your car to the mechanic every week, or every month? The easiest way to know is by performing the quarter test. Place an upside-down quarter into the grooves on the tire between the tread. If any part of George Washington's head is covered, the tires likely have enough tread on them. If his head is completely exposed, however, it's time to get new tires. Drivers are responsible for keeping their cars in a safe condition at all times to protect themselves and those around them. Having enough tread on your tires is one of the simplest and most important ways to stay safe on Missouri's roads.

At Heartland Auto Repair, we can help you prepare for the changing seasons by ensuring your car is ready for the road ahead!

If it's time for new tires, we've got you covered—come see us or call us at (573)-783-5403 to explore your options and keep your ride safe and smooth!

Baked Reuben Sliders

Baked Reuben Sliders are crazy easy to make and perfect for St. Patrick's Day! You could make some for game day too. They fly off the plate!!

Ingredients

- 12 Hawaiian-style sweet rolls cut in half to make tops and bottoms
- 1/2 cup Thousand Island dressing
- 1/2 pound corned beef sliced thin
- 1 pound sauerkraut drained
- 1/4 pound Swiss cheese sliced
- 2 tablespoons butter melted

Directions

1. Preheat oven to 350 degrees F. Butter the bottom of a 9-inch x 13-inch baking dish.
2. Place the bottoms of the rolls in the dish.
3. Spread 1/4 cup of Thousand Island dressing on the roll bottom halves.
4. Lay the corned beef slices over all the rolls. Spread the sauerkraut over the corned beef. Lay the Swiss cheese slices over the top of the sauerkraut.
5. Spread the remaining Thousand Island dressing over the inside of the top halves of the rolls and place on top of the Swiss cheese.
6. Use a pastry brush to spread melted butter over the tops of the rolls.
7. Place in the oven to bake for 15-20 minutes or until the cheese is completely melted.
8. Remove from the oven and cut each slider apart from the others. Place on a plate and serve warm!

ST. PATRICK'S DAY

Every year on March 17th, people across the globe don their best green outfits, gather for parades, and toast to the luck of the Irish. But have you ever wondered about the story behind St. Patrick's Day?

It all began with a young boy named Patrick, who wasn't even Irish. Born in Britain during the 5th century, Patrick was kidnapped by raiders and taken to Ireland as a slave when he was just 16 years old. After several years of hardship, he escaped and returned to his family. But Ireland had left its mark on Patrick, and he felt a calling to go back—not as a slave, but as a missionary.

Patrick spent years traveling across Ireland, spreading Christianity and connecting with the people. Legend has it that he used the humble shamrock to teach about the Holy Trinity, its three leaves symbolizing the Father, the Son, and the Holy Spirit. Over time, his work transformed the country, and he became a beloved figure in Irish history.

St. Patrick passed away on March 17th, which is why we celebrate that day in his honor. What began as a religious feast day in Ireland grew into a worldwide celebration of Irish culture, marked by parades, music, dancing, and of course, plenty of green.

So this St. Patrick's Day, whether you're sipping on a green drink, enjoying Irish music, or simply wearing a shamrock pin, remember that it all started with one man's courage and devotion to a land he loved.
